GHG Emission Policy

Document ID	MRO/PL/01	Rev. No.	02	Issue Date	22-05-2021	Page No:	1 / 1
-------------	------------------	----------	-----------	------------	-------------------	----------	--------------

JKS is aimed to comply with Environmental Protection Authority's policy on GHG emissions. JKS is committed to work with all stakeholders towards achieving the lower emissions to the extent possible or zero emissions of greenhouse gas where possible.

JKS aims to use the approaches and technologies to greenhouse gas reduction by promoting innovation, emerging best practice and technologies.

JKS aims to plan on Greenhouse Gas Management by:

1. Developing strategies to avoid, reduce, and mitigate direct emissions
2. Proposing the timeframe and interim target to reduce the emissions
3. Include requirements for quarterly testing against the targets
4. Align with EPA requirements

This Policy is intended to meet the standards of EPA by focusing on sources of emissions, the Policy would also apply when there is a future situations relating to a proposal in any development which may cause an increase in greenhouse gas emissions.
